PLATINUM

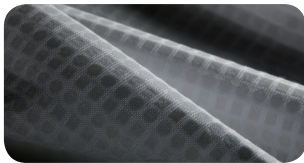

riposa LOOSE DOWN TOPPER

with built-in ActiveClima technology for natural and velvety soft comfort and a uniquely fresh feel

- Exquisite quilted design and riposa cover material with silk for the ultimate in softness

- Built-in ActiveClima technology: Lyocell fleece made with temperature-regulating microcapsules

- Topper padding filled with fluffy and soft goose down for a naturally comfortable feel

LOOSE DOWN TOPPER

This premium riposa DOWN TOPPER is made from pure goose down and reinforced with a Porlux core and comfortable fibre padding. Its gorgeous quilted design and silk-enhanced cover material gently conform to the shape of your body – for a soft and floating feel while lying down. Its integrated Lyocell fleece with built-in microcapsules provides for outstanding temperature regulation and unparalleled sleeping conditions.

This down topper is washable, separable and even comes in a hypo-allergenic version.

- Oeko-Tex Standard 100
- Swiss Guaranty VSB

Features

- Natural materials provide for softness and pressure point activation.
- ActiveClima technology for excellent climate control and a fresh feel.
- A customised design for a perfect night's sleep.
- The riposa DOWN TOPPER is washable and can be separated in the middle by a zip, which makes it easy to wash it.

Total height: approx. 7 cm

Cover

riposa DOWN TOPPER with a silk-enhanced cover. Both sides are done in a functional quilted design and connected by a zip. Zip on four sides, separable, can be washed or dry-cleaned.

DOWN TOPPER cover with silk.

- Oeko-Tex Standard 100
- FKT seal of approval

Oeko-Tex Standard 100

The STANDARD 100 by OEKO-TEX® is an independent certification and production label granted to all kinds of articles – from yarn and fabrics to the ready-to-use items available in shops – which have been tested for harmful substances.

Products only receive the STANDARD 100 label after being proven free of noxious chemicals, which makes the certification process an effective means of protecting consumers.

SWISS GUARANTY VSB

Down products sold with the "Swiss Guaranty VSB" label and a warranty booklet meet the following requirements: animal-friendly, hygienic, mite-protected, environmentally-friendly, recyclable, Swiss-made and transparent. The association and its members are DOWNPASS certified.

FKT seal of approval

Traditional toxicity tests only check textiles for certain harmful substances, but not for the harmful effects that chemicals and other substances can have on the skin. FKT tests (developed according to strict scientific requirements), however, perform a skin tolerance test in addition to the conventional inspection for harmful substances.
